The Leisure Pools Roman Style possesses a timeless elegance that will add grace to any setting. As simple, classical and pleasing to the eye today as it was in Ancient Rome, this pool's clever use of a rectangle and two semi-circles also provides unlimited possibilities for exciting landscaping concepts.

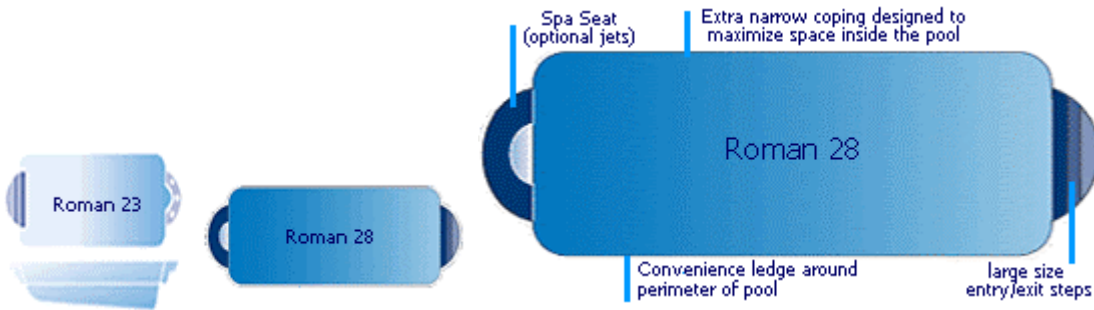

The Roman Style comes in three sizes to accommodate a range of uses and backyard sizes. It features broad entry steps at the shallow end with an optional spa seat and table at the deep end. Space inside the pool is maximized by the use of our unique narrow coping design.

Kerry Pain's pool design concepts include:

- Timeless Classic – If you were to pick one design that would always be in vogue it would be the Roman. The design has a timeless appeal that is simple, practical and elegant. The Roman style seemingly suits every situation.

- Formal – The geometric shape unlocks countless opportunities for exciting landscaping possibilities. The semi-circular ends feature steps at the shallow end of the pool and a spa seat area at the deep end.
- Mirror Reverse – You can place the Roman with the steps closest to your home or have the spa seat closer. Which ever way the pool faces it looks the same. If you add the optional spa jets and aeration and a table then you have a truly versatile and enjoyable pool.
